

Contracts Manager

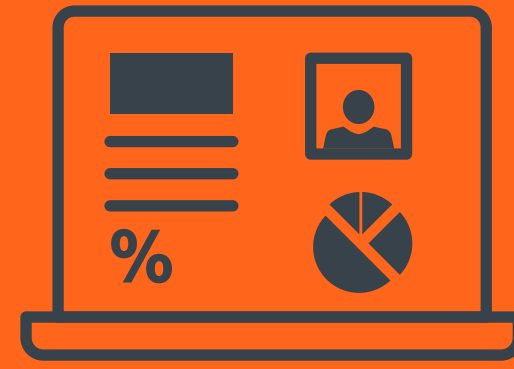

I manage the contract renewal process for customers. I need real time information of contracts that are due for renewal including call volumes and contract profitability. I can then negotiate the best contract for our company and our customers and arrange for contract documentation and invoicing to be issued in an efficient manner.

Challenges

Your business faces multiple challenges daily, but your systems shouldn't be one of them. Below are some of the top pains we know you are facing and how these can be addressed with Unite365!

Struggling to calculate contract profitability?
