

Installation/Service Engineer

I undertake installation, repair and maintenance services on-site. Typically I am the main point of contact with our customers. I work remotely with limited access to data and technology, so having a comprehensive and functional mobile device that can give me real time information on customers, and the equipment they have installed is essential. It allows me to produce job reports, health and safety checks and raise PO's.

Challenges

Your business faces multiple challenges daily, but your systems shouldn't be one of them. Below are some of the top pains we know you are facing and how these can be addressed with Unite365!

Savings/ROI
