

Finance Manager

As a Finance Manager I manage overheads and cashflow to improve our margins and grow our business profitability. It is critical to have a complete overview of finances at every point of our sales, service and contract cycle. I need to deliver ongoing improvements in processing speeds and minimise incorrect data entry to minimise late payments.

Challenges

Your business faces multiple challenges daily, but your systems shouldn't be one of them. Below are some of the top pains we know you are facing and how these can be addressed with Unite365!

Always waiting for the paperwork to arrive in the office to complete a job?

Mobile capabilities will send information instantly to the system to allow for processing

Does it take too long after the job is complete to get your invoices out?

Speed up invoicing and get paid faster with all information available from one central system

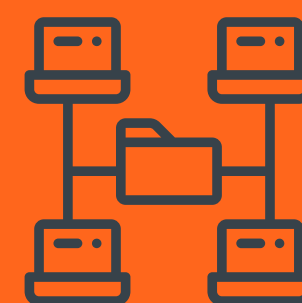

Are jobs delayed due to pending POs?

Ensure that when a PO request comes from the field it is immediately processed with flags and reporting on all central system functions

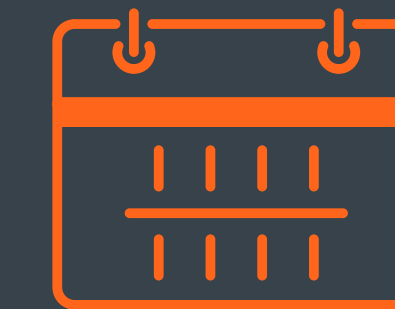

Is reporting across all the "moving parts" of the organisation difficult and time consuming?

With one fully integrated system, reporting is easy and straightforward, allowing you to ensure you have the information you need, when you need it!

Savings/ROI

improve invoicing by up to 30 days

Improved cashflow and accurate billing with immediate ability to produce invoices from jobs
