

Installation Manager

I am responsible for delivering installation work on time and on budget for our customers and optimising the profits we make on installation work. I need clear information on what has been sold and what is required including tasks and stock. I can then ensure that we get the right people, at the right place, at the right time, with the right tools and materials. Real-time visibility on resource location and availability are fundamental allowing us to better plan and schedule our resources.

Challenges

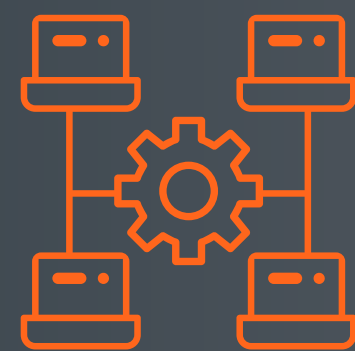

Your business faces multiple challenges daily, but your systems shouldn't be one of them. Below are some of the top pains we know you are facing and how these can be addressed with Unite365!
